

30 January 1981

MEMORANDUM FOR THE RECORD

STAT FROM:   
Chief, Classification Review Division

SUBJECT: Projected Requirements for Review of the  
Foreign Relations of the United States Series

In a conversation with Larry Pickering on 28 January, I advised Larry that I was working on manpower projections and asked him for his assistance in providing page counts on and approximate time-tables for the review of the 1955-57 series of the FRUS. In a follow-up phone call Larry advised that State's History Office wants to publish the twelve 1955-57 Volumes in the 1982-1983 time-frame, except for Volume IX which they hope to publish in 1981. Larry's shop is already well advanced in their review of Volumes III and X and have started their review of Volumes I, II, V, XI and XII. He advised further that the twelve volumes would constitute approximately 28,075 pages. The shortest volume will run 1,875 pages and the largest (a two volume set on Suez) will run to approximately 4,800 pages.
